## SOFTWARE ENGINEERING MANAGER

### PROFILE

- 8+ year's experience developing software with Java 8+.
- 3 year's experience leading the software development team using Agile Scrum methodology.
- Experience building and designing RESTful Web Services with Spring Framework 6+, JUnit, Redis, PostgreSQL, MongoDB, Docker, Postman, Openapi/Swagger, Apache Kafka.
- Experience in use of standard SCM tools (Git) and build automation tools (Maven).
- Experience working with remote teams in different time zones (Canada, USA, UK, India).
- Hands-on DevOps practices using GitHub Actions, Snyk, SonarQube, DockerHub, and Firebase.

### PROFESSIONAL EXPERIENCE

#### Software Engineer 3

March 2022 – July 2022 (5 months)

Ciena | Ottawa, ON, Canada | Permanent Full-time | Remote

- Work with the Ciena's PRISM Release Engineering team to provide software and services.
- Work in a "DevOps" culture from requirements, implementation to deployment.
- Apply technologies (Linux, Docker) to develop and support inhouse and commercial software.
- Interact with a globally distributed team of product designers.

**Skills:** Java 11 · Eclipse · JIRA · Docker Products · Confluence.

#### Specialist, Software Architecture

January 2021 – February 2022 (1 year 2 months)

Ciena | Montreal, QC, Canada | Permanent Full-time | Hybrid

- Leading the team and the software delivery using Agile Scrum methodology.
- Decide with the team how to approach tasks and develop a plan to accomplish them.
- Drive product design and analysis.
- Perform development, unit/integration testing, individually and in collaboration with the team.
- Perform code reviews.
- Create and maintain internal technical documentation.
- Troubleshoot software issues & work with the team to identify the cause.
- Maintain the continuous integration and deployment tools.
- Coordinate and communicate information to team members and stakeholders.
- Resolve issues and conflicts that may arise during sprint execution.
- Support the director in allocating software developer resources.

**Skills:** Java 11 · Spring Core · JavaFX · JUnit · Git · Maven · Design Patterns · JIRA · Bitbucket · Confluence

#### Senior Associate, Solutions Engineering

November 2018 – December 2020 (2 years 2 month)

Ciena | Montreal, QC, Canada | Permanent Full-time | Hybrid

- Develop and Design features to analyze and visualize telecom networks.
- Participate in all stages of the software development.
- Collaborate with software development team to ensure successful software delivery on time.
- Enhance coding standards and development guidelines.
- Participate in code/design reviews.
- Maintain internal technical documentation.

**Skills:** Java 11 · Spring Core · JavaFX · JUnit · Git · TL1 · Maven · Design Patterns · JIRA · Bitbucket · Confluence

## Java Software Developer

April 2017 – October 2018 (1 year 7 months)

Ciena | Montreal, QC, Canada | Contractor Full-time | On-Site

- Develop adaptive solutions related to networking and telecom engineering.
- Participate in all stages of the software development.
- Work in close collaboration with the telecommunication engineers.
- Understand the requirements involved in the evolution of the system.

**Skills:** Java 8 · Swing · JUnit · Git · TL1 · Maven · Design Patterns · Eclipse · JIRA · Bitbucket · Confluence

## Founder and President

March 2015 – June 2016 (1 year 4 months)

IT-DMSIC | Paris, Paris, France | Permanent Full-time | On-Site

- Developing and maintaining a company's vision, mission statement, and strategic plan.
- Setting up systems and procedures to ensure the company's success over time.
- Reviewing financial statements and other reports to assess the company's performance.
- Identifying new opportunities for revenue growth, including new products or services.
- Evaluating new technologies to determine their potential impact on the company's operations.
- Establishing and maintaining relationships with suppliers, customers, and other business contacts.

**Skills:** Agile Project Management · Software Development · Program Management

## Erlang Software Developer Intern

April 2014 – September 2014 (6 months)

EDF | Clamart, Hauts-de-Seine, France | Internship | On-Site

- Study and analyze the distributed systems domain bibliography.
- Define and implement a prototype model with Erlang on Sim-Diasca.
- Test and validate the results.

**Skills:** Erlang · Git · Application Development · Design Patterns · Eclipse · Sim-Diasca

## Java Software Developer Intern

March 2012 – August 2012 (6 months)

Laboratoire IBISC, Université d'Evry, Université Paris-Saclay | Évry, Essonne, France | Internship | On-Site

- Analyze coalition formation algorithms related to the distributed systems domain.
- Develop a generic coalition formation protocol with Java and Jess.
- Test, validate the results.

**Skills:** Java 7 · JUnit · Git · Application Development · Object Oriented Design · Eclipse

## Java Software Developer Intern

March 2011 – August 2011 (6 months)

Laboratoire IBISC, Université d'Evry, Université Paris-Saclay | Évry, Essonne, France | Internship | On-Site

- Analyze negotiation protocol algorithms related to the distributed systems domain.
- Develop a generic negotiation-based protocol with Java and Jade.
- Test, validate the results.

**Skills:** Java 6 · JUnit · Git · Application Development · Object Oriented Design · Eclipse

## EDUCATION

### Master of Research - MRes, Computer Science & Intelligent Systems

2012 - 2014

PSL Research University | Greater Paris Metropolitan Region | Full-time

### Master of Research - MRes, Computer Science & Human Sciences

2010 - 2012

Paris 8 Vincennes Saint-Denis University | Saint-Denis, Seine-Saint-Denis, France | Full-time

Dear Madam, Sir,

[Algerian Citizen Native](#) and [Canadian Citizen by Naturalization](#) Graduated from Two Separate Higher Education Institutions in France : [PSL Research University](#) ( [Dauphine Campus](#) and [AgroParisTech](#) ) in 2014 and [Paris 8 Vincennes Saint-Denis University](#) in 2012 with 02 Master of Research - MRes in Computer Science ( Cum Laude honor ) after being Graduated from [Université Mouloud Mammeri de Tizi-Ouzou](#) ( Algeria ) in 2010 with a Bachelor of Computer Science - BCompSc ( Cum Laude honor ).

**Software Engineer 3** with **8+ years experience** designing and developing software using the Java ecosystem such as Java 8+, Spring Framework 6+, JUnit, PostgreSQL, Redis, MongoDB, Docker Products, Postman, Openapi/Swagger to develop Desktop, RESTful Webservices and Microservices applications by applying Agile Scrum methodology. Please refer to my [LinkedIn](#) and [Gravatar](#) profiles for more information.

After **5.4 amazing years** developing, designing, expanding a **Desktop Application (Java 11, JavaFx/OpenJFX and Spring Core Framework)** at [Ciena Corporation](#) as a full time employee dedicated to the **Optical Networking** domain (reporting to the **Director Service Innovation R&D** at [Ciena Corporation](#)) to aid the Ciena's network engineers on their daily tasks, I resigned from [Ciena Canada Quebec](#) on **July 29<sup>th</sup>, 2022** which triggered a full background check.

During my experience at [Ciena Corporation](#) I led the software development team of **04 Software Developers** contractors and **02 internships** students as [Algerian Citizen Native](#) and [Resident Permanent \(PR\) of Canada](#) using the **Agile Scrum methodology** for more than **03 years**.

Currently looking for a **career advancement** following the **Educational Credential Assessment (ECA)** that I earned and provided by the **Comparative Education Service (CES)** of the **University of Toronto** of my Master of Research – MRes, Computer Science & Intelligent Systems of **PSL Research University**.

Do not hesitate to reach out to me for more information.

Regards,  
Lyes SEFIANE.
